SAFETY PRECAUTIONS

In this manual, symbols are used to highlight warnings and cautions that you must read to prevent accidents. The meanings of these symbols are as follows:

⚠️ Warning
- Something that could cause serious injury or death.

⚠️ Caution
- Something that could cause injury or damage to the equipment.

Other symbols

⚠️ Required (mandatory) actions.
🚫 Prohibited actions.

⚠️ Warning

Operation using an AC adapter
⚠️ Use only a ZOOM AD-16 AC adapter with this unit.
🚫 Do not use do anything that could exceed the ratings of outlets and other electrical wiring equipment. Before using the equipment in a foreign country or other region where the electrical voltage differs from that indicated on the AC adapter, always consult with a shop that carries ZOOM products beforehand and use the appropriate AC adapter.

Operation using batteries
⚠️ Use 4 conventional 1.5-volt AA batteries (alkaline or nickel-metal hydride).
⚠️ Read battery warning labels carefully.
⚠️ Always close the battery compartment cover when using the unit.

Alterations
🚫 Never open the case or attempt to modify the product.

⚠️ Caution

Product handling
⚠️ Do not drop, bump or apply excessive force to the unit.
⚠️ Be careful not to allow foreign objects or liquids to enter the unit.

Operating environment
🚫 Do not use in extremely high or low temperatures.
🚫 Do not use near heaters, stoves and other heat sources.
🚫 Do not use in very high humidity or near splashing water.
🚫 Do not use in places with excessive vibrations.
🚫 Do not use in places with excessive dust or sand.

AC adapter handling
⚠️ When disconnecting the AC adapter from an outlet, always pull the body of the adapter itself.
⚠️ During lightning storms or when not using the unit for a long time, disconnect the power plug from the AC outlet.

Battery handling
⚠️ Install the batteries with the correct +/- orientation.
⚠️ Use a specified battery type. Do not mix new and old batteries or different brands or types at the same time. When not using the unit for an extended period of time, remove the batteries from the unit.
⚠️ If a battery leak should occur, wipe the battery compartment and the battery terminals carefully to remove all battery residue.

Connecting cables with input and output jacks
⚠️ Always turn the power OFF for all equipment before connecting any cables.
⚠️ Always disconnect all connection cables and the AC adapter before moving the unit.

Volume
🚫 Do not use the product at a loud volume for a long time.

Usage Precautions

Interference with other electrical equipment
In consideration of safety, the G1on/G1Xon has been designed to minimize the emission of electromagnetic radiation from the device and to minimize external electromagnetic interference. However, equipment that is very susceptible to interference or that emits powerful electromagnetic waves could result in interference if placed nearby. If this occurs, place the G1on/G1Xon and the other device farther apart. With any type of electronic device that uses digital control, including the G1on/G1Xon, electromagnetic interference could cause malfunction, corrupt or destroy data and result in other unexpected trouble. Always use caution.

Cleaning
Use a soft cloth to clean the panels of the unit if they become dirty. If necessary, use a damp cloth that has been wrung out well. Never use abrasive cleansers, wax or solvents, including alcohol, benzene and paint thinner.

Malfunction
If the unit becomes broken or malfunctions, immediately disconnect the AC adapter, turn the power OFF and disconnect other cables. Contact the store where you bought the unit or ZOOM service with the following information: product model, serial number and specific symptoms of failure or malfunction, along with your name, address and telephone number.

Copyrights
- All trademarks, product names and company names mentioned in this documentation are the property of their respective owners.

Note: All trademarks and registered trademarks mentioned in this manual are for identification purposes only and are not intended to infringe on the copyrights of their respective owners.
Introduction

**Five simultaneous effects**

You can select and arrange the order of up to five effects as you like and use them simultaneously. Use the cursor keys and view the effects being used on the LCD anytime.

**Variety of rhythm patterns**

Realistic sounds are provided with updated rhythm patterns and tones.

**Looper**

The looper can be synchronized with rhythms and record phrases of up to 30 seconds.

**Realistic amplifier modeling**

With realistic amplifier modeling sounds from our G3, we have faithfully re-created the rich harmonics and compression feel of tube amps.

**Long battery operation time**

20 hours of continuous operation is possible using alkaline batteries (when the LCD backlight is off).

---

* A printed list of effect parameters is not included with the G1on/G1Xon.
  Please download a copy from the ZOOM website. → http://www.zoom.co.jp/
Part Names

Top Panel

- Display
- Cursor keys (up, down, left, right)
- Expression pedal (G1Xon only)
- HOME key
- Parameter knob
- ENTER key
- RHYTHM/LOOPER key
- MENU key
- Foot switches

G1Xon

G1on
**Rear Panel**

- **Input jack**: Guitar, Portable audio player, etc.
- **AUX IN jack**: Headphones, Guitar amplifier
- **Output jack**: USB connector, DC9V AC adapter jack
- **Pedal switch (G1Xon only)**

**NOTE**

- Signals input through the AUX IN jack are sent directly to the OUTPUT jack without passing through the built-in effects.
Turning the Power ON

Lower the amplifier's volume all the way.

**When using batteries**

Insert batteries into the battery compartment.

Plug a guitar cable into the INPUT jack. (Doing so turns the unit on.)

**When using an adapter**

Connect an AD-16 adapter.

Turn the amplifier's power on and raise its volume.

**NOTE**

- USB bus power operation is possible.

**eco mode**

If the eco mode setting is ON and it is left unused for 10 hours, it turns off automatically. (See page 16.)
Display Information

HOME Screen

- Bank name
- Patch number
- Status icon (→P18)
- Remaining power display
- Patch settings (→P9)
- Effect
- Patch names
- Add effects (→P12)
- Delete effects (→P12)
- Reorder effects (→P13)

HINT
- Press HOME to return to the HOME screen from any other screen.
- Effects that are OFF appear gray.

Terms Used in This Manual

Patch
The ON/OFF status and the parameter settings of each effect are stored as "patches". Use patches to recall and save effects. The G1on/G1Xon can store 100 patches.

Bank
A set of 10 patches is called a "bank". The G1on/G1Xon has 10 banks labeled A–J.
Using Patches

To change the patch

Use \( \text{scale} \) and \( \text{bank} \).

HINT

For details about using the preselect function to change directly to patches that are not next in order, see page 19.

Press and hold \( \text{scale} \) or \( \text{bank} \) to change patches continuously.

To change the bank

Use \( \text{bank} \) and \( \text{bank} \).

Use the diagrams to illustrate the changes.
To change settings for individual patches

Turn on the HOME screen.
Select PATCH SETTINGS.
Press .
The PATCH SETTINGS screen appears.

Press .
The patch editing screen appears.

Turn .
Open the page you want.

To adjust the patch level (LVL)

Turn .
Select LEVEL.
Press .
Turn .
Set between 0 and 120.

To change the patch name (NAME)

Turn .
Move the cursor.
Press .
Confirm the character to change.

Turn .
Change the character.

HINT
You can use and to change the type of character/symbol.
Adjusting Effects

To select an effect

Turn \( \bigcirc \) on the HOME screen.
Select the effect.
Press \( \bigcirc \).
Show the top screen of the selected effect.

HINT

- The virtual knobs are shown with the current parameter values.

To turn an effect ON or OFF

Press \( \bigcirc \) or \( \bigcirc \).

Effect ON

Effect OFF

To select an effect type

Use \( \bigcirc \) and \( \bigcirc \).

Effect processing capacity

The G1on/G1Xon allows you to combine five effects as you like. However, if you combine effect types that require great amounts of processing power (amp models, for example), the available processing capacity might not be enough. If this occurs, "PROCESSING LIMIT" will appear, and the effect will be bypassed. You can avoid this by changing some of the effect types.
To select from a category

Press and hold or .
The categories appear.

Turn .
Select the category.

Press .

NOTE
- The G1Xon includes a PEDAL effects category.

To scroll through the effects shown

When using multiple effects, scroll to switch the effect shown.

Use and .

To adjust parameters

Press .
The editing screen appears.

Turn .
Select the parameter to adjust.

Press .
Confirm the parameter to adjust.

Turn .
Adjust the parameter value.

HINT
- When shipped from the factory, the auto save function is active. As soon as a parameter is adjusted this change is automatically saved. (See page 18.)
Adjusting Effects

To add an effect

1. Turn on the HOME screen.
2. Select ADD EFFECT.
3. Press .
4. Open the category selection screen.
5. Turn .
6. Select the category.
7. Press .
8. Open the added effect placement screen.
9. Turn .
10. Select where to add the effect.

HINT
- On the effect screen, you can also press and hold or to add an effect.

To remove an effect

1. Turn on the HOME screen.
2. Select DELETE EFFECT.
3. Press .
4. Open the effect deletion screen.
5. Press .
6. Open the effect deletion screen.
Turn .
Select the effect to delete.

Press .
Open the confirmation screen.

Press .
Delete the effect.

Turn .
Select the new position for the effect.

Press to end.

To change the order of effects

Turn on the HOME screen.
Select EFFECT CHAIN.

Press .
Open the EFFECT CHAIN screen.

Turn .
Select the effect to move.

Press .
Confirm the effect to move.

Turn .
Select the new position for the effect.

Press .
Confirm the new position.

Press to end.
Adjusting the Master Level and Tempo

To adjust the master level

Press (○) on the HOME screen.
Open the MENU screen.

Turn (○).
Select MASTER LVL.

Press (○).

Press (○) to end.

To adjust the master tempo (BPM)

Press (○) on the HOME screen.
Open the MENU screen.

Turn (○).
Select BPM.

Press (○).

Turn (○).
Set between 40 and 250.

NOTE
This tempo setting is shared by all effects, rhythms and the looper.

Press (○) to end.
Saving and Swapping Patches

**To save the current patch**

Press \( \odot \) on the HOME screen.
Open the MENU screen.

Turn \( \odot \).
Select SAVE.

Press \( \odot \).
Open the patch SAVE screen.

Turn \( \odot \).
Select where to save the patch.

Press \( \odot \).
Open the confirmation screen.

Turn \( \odot \).
Select "YES" to execute.
Select "NO" to cancel.

Press \( \odot \).

**To swap the current patch**

Press \( \odot \) on the HOME screen.
Open the MENU screen.

Turn \( \odot \).
Select SWAP.

Press \( \odot \).
Open the patch SWAP screen.

Turn \( \odot \).
Select the other patch to swap.

Press \( \odot \).
Open the confirmation screen.

Turn \( \odot \).
Select "YES" to execute.
Select "NO" to cancel.

Press \( \odot \).

**NOTE**

- Patches cannot be swapped if the current patch has not been saved.
Changing Various Settings

Press \( \circ \) on the HOME screen.
Open the MENU screen.

Press \( \circ \).
Select SETTINGS.

Turn \( \circ \).
Select ALKALI (alkaline) or Ni-MH (nickel-metal hydride).

To select the battery type

Press \( \circ \).
Open the SETTINGS screen.

Turn \( \circ \)
Select BATTERY.

Press \( \circ \).
Select ON or OFF.

To set the eco mode

Turn \( \circ \)
Select eco.

Press \( \circ \).

HINT

- ON: eco mode is active. If left unused for 10 hours, the power turns off automatically.
- OFF: eco mode is not active.
To adjust the backlight time

Turn on the SETTINGS screen.
Select LCD LIGHT.

Press .

Turn .
Select OFF, ON, 15sec or 30sec.

To adjust the display contrast

Turn on the SETTINGS screen.
Select LCD CNTRST.

Press .

Turn .
Set between 1 and 13.
Changing Various Settings

To set the auto save function

Turn on the SETTINGS screen.
Select AUTO SAVE.

Press .

Turn .
Select ON or OFF.

When AUTO SAVE is ON

Patch changes will be saved automatically.

This shows that the patch has been changed.
This shows that the patch has been saved.

When AUTO SAVE is OFF

Patch changes will not be saved until they are saved manually.

If a patch has been changed, a confirmation screen will appear when you try to open another patch.

Turn .
Select “YES” to save.
Select “NO” to not save.

Press .

NOTE

If you select “NO”, the patch setting changes will not be saved and the other patch will open.

Turn .
Select where to save the patch.
Press \( \text{on} \).

Open the confirmation screen.

Turn \( \text{on} \).
Select "YES" to save.
Select "NO" to cancel.

Press \( \text{on} \).
The patch changes are saved.

Press \( \text{on} \).

Turn \( \text{on} \). Select ON or OFF.

**HINT**
- ON: The preselect function is active. You can select the next patch before changing to it.
- OFF: The preselect function is inactive.

**NOTE**
- If a patch has not been saved, patches cannot be swapped. (See page 15.)

---

**When PRESELECT is ON**

On the HOME screen, use \( \text{and} \) .
Select the next patch.

Press \( \text{and} \) at the same time.
Change to the selected patch.

---

**To use the preselect function**

Turn \( \text{on} \) on the SETTINGS screen.
Select PRESELECT.
Using the Tuner

To activate the tuner

On the HOME screen or an effect screen, press \( \text{[Down]} \) and \( \text{[Up]} \) at the same time.
Open the tuner screen.

To tune the guitar

You can play each open string and tune it.

**CHROMATIC TUNER**

The name of the nearest note and the pitch accuracy are shown.

**OTHER TUNERS**

Press \( \text{[Up]} \) or \( \text{[Down]} \) to end.

To change tuner settings

On the tuner screen, press \( \text{[OK]} \).
Open the TUNER settings screen.

Turn \( \text{[OK]} \).
Select the item to set.

Press \( \text{[OK]} \).
Confirm the item to set.

Turn \( \text{[OK]} \).
Change the setting.

Press \( \text{[OK]} \) to end.
Setting items

OUTPUT
Select BYPASS or MUTE.

Standard pitch (CALIBRATION)
The standard pitch for middle A can be set from 435-445 Hz.

Tuner types (TYPE)
Select chromatic (CHROMA) or another tuner type. The other tuner types are shown in the table below.

Drop tuning (FLAT)
Set to $b \times 0$, $b \times 1$, $b \times 2$ or $b \times 3$.

NOTE
- Drop tuning is not possible when the TYPE is set to CHROMA.

Tuner types

<table>
<thead>
<tr>
<th>Display</th>
<th>Meaning</th>

</tbody>
</table>
Using Rhythms

To activate a rhythm

On the HOME screen or an effect screen, press .
Open the RHYTHM screen.

Hint

• On the RHYTHM screen, press to switch to the LOOPER screen.

To set the pattern, tempo and volume

On the RHYTHM screen, turn .
Select the item to set.

Press .
Confirm the item to set.

Setting items

- Pattern
  Select the rhythm pattern. For more about rhythm patterns. (See page 23.)

- Tempo (BPM)
  The setting range is 40-250.

  NOTE
  • This tempo setting is used by every effect, rhythms and the looper.

- Volume (LVL)
  The setting range is 0-100.

To start rhythm playback

On the RHYTHM screen, press .
To stop the rhythm

On the RHYTHM screen, press  .

**HINT**

- On the RHYTHM screen, you can press  to return to the HOME screen while the rhythm continues playing.

</table>
Using the Looper

To activate the looper

On the HOME screen or an effect screen, press .

Open the LOOPER screen.

To set the recording time, tempo and volume

On the LOOPER screen, turn .

Select the item to set.

Press .

Confirm the item to set.

Turn .

Change the setting.

Setting items

Recording time (TIME)
Set to MANUAL or in a range from $\times 1$ to $\times 64$.

NOTE
- The looper can record up to 30 seconds.
- If the setting (number of quarter notes) would not fall in this range, it will automatically be adjusted.
- Changing the recording time will erase the currently recorded loop.

Tempo (BPM)
The setting range is 40-250.

NOTE
- Changing the tempo will erase the currently recorded loop.
- This tempo setting is used by every effect, rhythms and the looper.

Volume (LVL)
The setting range is 0-100.
To record and play back a phrase

On the LOOPER screen, press \[REC\].
Start recording.

After the recording time elapses, playback will start.

**When TIME is set to MANUAL**

Loop playback start when you press \[PLAY\] or the maximum recording time (30 seconds) is reached.

**NOTE**

- During rhythm playback, recording will start after a pre-count.

To overdub a recorded loop

During loop playback, press \[OVERDUB\].
Press \[PLAY\] to end.

To stop loop playback

On the LOOPER screen, press \[STOP\].

To erase the loop

Stop loop playback and press and hold \[CLEAR\] on the LOOPER screen.

**HINT**

- On the LOOPER screen, you can press \[HOME\] to return to the HOME screen while recording a loop or playing it back.
Using the Expression Pedal (G1Xon only)

If a PEDAL category effect has been added, settings will be made automatically to allow control of expression pedal parameters.

To change the pedal settings

- Turn on the HOME screen.
- Select PATCH SETTINGS.
- Press .
- Open the PATCH SETTINGS screen.
- Press .
- Open the patch editing screen.
- Turn .
- Open the PEDAL setting screen.

To set the controlled parameter and range

- Turn on the PEDAL setting screen.
- Select the item to set.
- Press .
- Confirm the item to set.
- Turn .
- Change the setting.

Setting items

- Controlled parameter
- Minimum value (pedal up)
  This differs according to the effects type.
- Maximum value (pedal down)
  This differs according to the effects type.
HINT

• NO ASSIGN: No function is assigned to the expression pedal.
• AUTO ASSIGN: When using a PEDAL category effect, a parameter will be assigned to the pedal automatically.
If multiple PEDAL category effects are used, their corresponding parameters will all be assigned to the expression pedal.
• INPUT VOL: Controls the input level.
• OUTPUT VOL: Controls the output level. (Does not affect the volume of the rhythm or looper.)
• The pedal switch can be used to turn ON/OFF effects that are assigned to the expression pedal. (The ON/OFF setting made by the pedal switch is not saved.)

NOTE

• If "Error!" appears, restart calibration from the beginning.

To adjust the torque

Insert the hex key into the torque adjustment screw on the side of the pedal.
Turn it clockwise to tighten the pedal, and turn it counterclockwise to loosen the pedal.

To calibrate its sensitivity

While pressing ( ), turn the unit on. (See page 6.)

Operate the pedal as the instructions show and press ( ) each time.
"Complete!" appears when calibration is finished.

NOTE

• Be careful when loosening the screw. Loosening it too much could cause it to come off inside the unit.
Updating the Firmware

Download the latest firmware from the ZOOM website.
http://www.zoom.co.jp/

To view the firmware versions

Press ◯ on the HOME screen.
Open the MENU screen.

Turn ◯ .
Select VERSION.

Press ◯ .
The firmware version is shown.

Press ◯ to end.

To update the firmware

Confirm that the power is off.

While pressing both ◯ and ◯, connect the unit to a computer using a USB cable.
The FIRMWARE UPDATE screen appears.

Launch the firmware update application on your computer, and execute the update.
When it finishes updating, “Complete!” appears on the display.
Disconnect the USB cable.

**HINT**
- Updating the firmware will not erase saved patches.

**NOTE**
- Do not disconnect the USB cable while the firmware is being updated.

To restore the G1on/G1X on to its factory default settings

While pressing ( ), turn the power ON. (See page 6.)
The All INITIALIZE screen appears.

Turn ( ).
Select “YES” to execute.
Select “NO” to cancel.

Press ( ).

**NOTE**
- Be careful because this will restore all defaults to their factory settings. Be sure that you want to do this.
Troubleshooting

The unit will not turn ON

- If operating on battery power, connect a cable to the INPUT jack.

No sound or very low volume

- Check the connections (→ P5).
- Adjust the levels of the effects being used (→ P11).
- Adjust the master level (→ P14).
- When adjusting the volume with an expression pedal, make sure that a suitable volume setting has been set with the pedal.
- Confirm that the TUNER OUTPUT is not set to "MUTE" (→ P20).

There is a lot of noise

- Check shielded cables for defects.
- Use only a genuine ZOOM AC adapter (→ P6).

An effect is not working

- If the effect processing capacity is exceeded, "PROCESSING LIMIT" appears on the effect graphic. In this case, the effect is bypassed (→ P10).

Batteries lose their charge quickly

- Confirm that you are not using manganese batteries. Alkaline batteries should provide about 20 hours of continuous operation.
- Check the battery setting.
  Set the type of battery being used to enable the remaining charge to be shown more accurately (→ P16).
- Due to the characteristics of the batteries, they might be used more quickly in cold.

The expression pedal is not working well

- Check the expression pedal settings (→ P26).
- Adjust the expression pedal (→ P27).

FCC regulation warning (for U.S.A.)
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

For EU Countries

Declaration of Conformity:
This product complies with the requirements of
EMC Directive 2004/108/EC and
ErP Directive 2009/125/EC and
RoHS Directive 2011/65/EU

Disposal of Old Electrical & Electronic Equipment
(Applicable in European countries with separate collection systems)
This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

### G1Xon Guitar Multi-Effects Processor

#### BANK / PAGE | PATCH CATEGORY | PATCH NAME
---|---|---
0 | MOODSWING | Professional Settings
1 | Demo | Crunch
2 | Crinkle | Clean
3 | Walkman | Simple Tones
4 | Down-Roxy | Demo
5 | ChorusPad | Demo
6 | FuzzFunk | Demo
7 | Tone-Loss | Demo
8 | Acoustic | Demo
9 | Supertones | Demo

#### BANK / PAGE | PATCH NAME
---|---
0 | METAL RUFF | Powerful and tons of sustain! The REVO-1 amp feature gets a nice hard rock lead tone.
1 | WHITE | This modern heavy sound even works with down-tuning and also cuts noise well.
2 | SPEEDPET | A traditional sound like you can hear in the Memphis, Tennessee, part of the blues heartland.
3 | WAKAPON | Delay, reverb and chorus combine to create a dreamy atmosphere.
4 | Minutemen | Zaka 96's doublebass styling is combined with this metallic sound.
5 | MELODY-BF | Medium style big guitar for heavier music.
6 | Guitorgan | Legendary Tone
7 | PHASE CITY | TappinHer
8 | BRIGHTON | This volume-boosting sound is perfect for tapping. Turn the Hall OFF if you want an even more pristine tone.
9 | ARP ONE | ProGress
