

Faults and workaround in GuitarLab (Windows version)

July, 2016

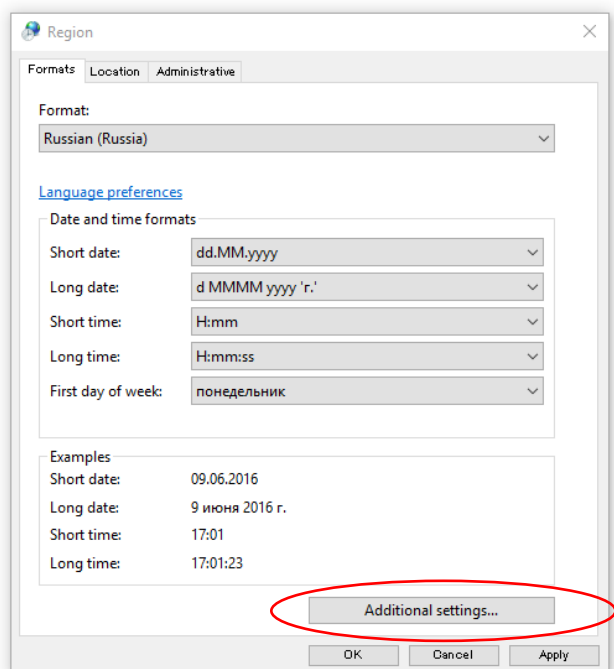

GuitarLab (Windows version): If the Internet connection error is displayed even though it is connected to the Internet, please try the following settings:

If the following error is displayed despite being connected to the Internet ...

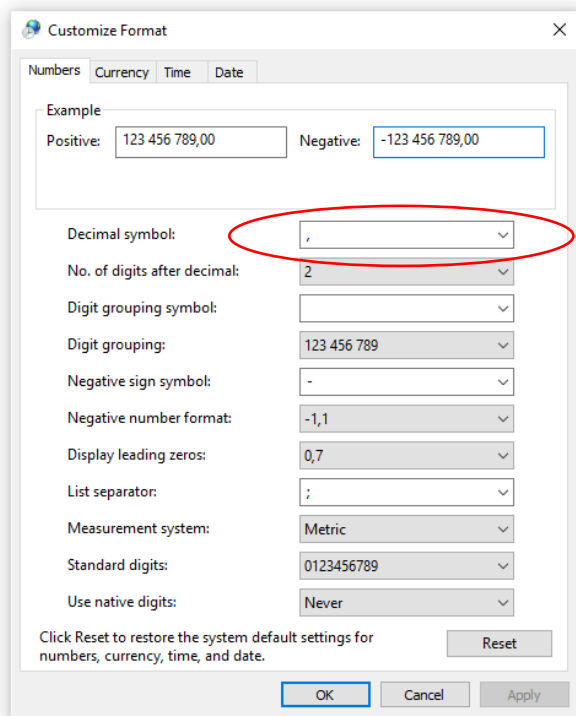

(It occurs sometimes by the language setting such as Russian)

1. Click "Control panel" - Select "Region" - Select "Format tab" - Click "Additional settings".

2. "Customize format" windows will open. Select ".(dot)" at Decimal symbol of Number tab.

This error may be solved with this change of settings.

*Notice

If you change this setting, decimal symbol on OS will be displayed with ".(dot)" .
